

► MOVING TARGET QUALIFICATION TRAINING ► P.O.S.T REQUIREMENTS

1. **Elite Base System**, available in Standard or Armored

This base system is fully functional for moving-target qualification training and can be deployed immediately. The Elite Base Package enhances firearms training with greater difficulty and realism. Designed for versatility, MotoShot Robots operate seamlessly indoors and across rugged outdoor terrain. The Elite Base Package is a smart choice for departments aiming to meet P.O.S.T. requirements for moving target training, while keeping the flexibility to add advanced training accessories over time.

Package Includes:

MotoShot Elite Target System – Available in standard (handgun-rated) or armored chassis with full enclosure to protect internal components from errant rounds

Digital Handheld Remote – Offers variable speed control with forward, reverse, and zero-turn maneuverability, operable to 1000m los.

Standard Target Brackets – Compatible with paper and cardboard targets

Quick-Exchange Battery Packs – Standard SLA batteries included: lithium upgrade optional for 6X more run-time and faster recharge time

Quick-Connect Battery Charger – Fast, easy battery recharging

Pre-Wired for Hit Reactive Targets – Ready for seamless future integration

Optional OEM upgrades to consider:

- REACTIVE 3D TARGETS
- TURNING TARGETS
- GALLERY FEATURE
- HOSTAGE SCENARIO TRAINER

► IMPROVE MARKSMANSHIP ► ANTICIPATE TARGET MOVEMENT

2. **Elite Base System + Hit Reactive Auto-Lift Package**

The MotoShot Elite Base + Reactive Package transforms standard qualification into dynamic, scenario-based training with realistic, reactive threat simulations and decision-making drills featuring unpredictable target movement.

Package Includes: Everything in the Elite Base Package, plus:

3D Life-Sized Realistic Target – Durable plastic design with lifelike arms for enhanced realism

Integrated Hit Reactive Sensing System – Detects hits from both live-fire and less-lethal rounds

Electromagnetic Fall Bracket – Features cantilever-controlled fall action, with Auto-Lift capability

▶ DECISION MAKING

▶ THREAT IDENTIFICATION

3. *Elite Base System + Decision-Making Package*

MotoShot Elite Base + DMT Package enables the trainer to teach the practical application of target identification, threat recognition, shoot/no-shoot, and deadly force decision making. Simulations that are reflective of the conditions that officers would face in reality will better hone the officer's skills for the real thing. This package is most commonly used for shoot/no-shoot, judgment, and decision-making courses beyond static qualification.

Package Includes: Everything in the Elite Base Package, plus:

Dedicated DMT Bidirectional Target Turner – Enables realistic turning target presentations

Integrated Power Supply – Powers the DMT directly from the robot's onboard system

Remote Activation – Seamless control through the robot's handheld remote

Note: Wood uprights, backer, and paper target are not included

Delivered color is black

Or Combine it all into one MotoShot Robot. Six training configurations.

The MotoShot Elite can be configured to support six distinct training modes—allowing agencies to address a wide range of training objectives with a single robotic system. This is our most common configuration. ★

2026 PRELIMINARY BUDGET PRICING OVERVIEW

Provided for initial budget planning purposes only. Final configuration, compliance, pricing, and applicable freight charges will be confirmed through a formal written quote.

Base Platform (Select One)

Elite Standard Robot	\$8,499
Elite Armored Robot	\$11,499

Optional Upgrade Packages (Any Combination May Be Added)

Decision Making Bi-Directional Target Turner Package	\$2,300
Hit Reactive Auto-Lift Package	\$3,995
Gallery System Package	\$1,295
Lithium Battery and Charger Package	\$727
Steel Target	\$299
Static 3D Target	\$319

Examples Budget Scenarios

Elite Standard (Base Only)	~ \$8,400
Elite Standard Reactive Auto-Lift + DMT	~ \$15,000
Elite Armored + Reactive Auto-Lift + DMT *	~ \$18,000
Elite Armored + Reactive Auto-Lift + Gallery	~ \$17,000
